

RADJA RAVINE SALFRIANDRY

WEB DEVELOPER

(62) 851-2945-1696 | ravinesalf@gmail.com | github.com/yoravo | Karawang, Indonesia

SUMMARY

Web Developer with hands-on experience building full-stack applications using Laravel, React, and TypeScript. Passionate about writing clean code and creating responsive user interfaces. Comfortable with both backend system development and modern frontend frameworks, with a continuous learning mindset.

EXPERIENCE

IT Staff Intern, Pupuk Kujang	Aug 2024 - Nov 2024
- Developed a student data management web application using Laravel 11, enabling efficient data processing, storage, and retrieval. - Built a car showroom management website with dynamic backend features using Laravel 11, focusing on structured data handling and clean architecture. - Collaborated with UI/UX designers to develop a movie ticket booking website, translating design mockups into functional web features using Laravel 11. - Performed data migration by transferring company records from Excel spreadsheets into a web-based system, ensuring data accuracy and consistency.	

PROJECTS

Personal Portfolio Website	Apr 2026
Personal Project - Built a responsive personal portfolio website using Next.js, TypeScript, and Tailwind CSS with smooth Framer Motion animations. - Implemented a project showcase section and contact form with reusable component architecture. - Deployed on Vercel with performance optimization, SEO-friendly structure, and fully responsive design across all devices.	
cmlabs Frontend Freelance Test	Apr 2026
Technical Assessment - Built a multi-page meal ingredient browser using React and TypeScript, consuming TheMealDB API to display ingredients, filtered meals, and meal details. - Implemented client-side search functionality, dynamic routing between pages, and embedded YouTube tutorials on the meal detail page. - Applied atomic component architecture with fully responsive design across desktop, tablet, and mobile.	
Region Filter Web App	Mar 2026
Technical Assessment - Developed a dynamic region filtering interface supporting province, regency, and district hierarchy using TypeScript and React. - Utilized React state management to update UI in real-time based on user selections. - Structured the project with reusable React components and clean TypeScript interfaces for maintainable code.	

SKILLS

HTML	TypeScript	TailwindCSS	PHP
CSS	ReactJS	Bootstrap	Laravel
JavaScript	Next.js	MySQL	Git / GitHub

EDUCATION

Bachelor of Computer Science	Sep 2021 - Jul 2025
Singaperbangsa Karawang University	
Relevant coursework in Web Development, Object-Oriented Programming, and Database Management.
